#### Independent Auditors' Report

The Board of Trustees
The New School:

#### **Report on the Consolidated Financial Statements**

We have audited the accompanying consolidated financial statements of The New School (the university), which comprise the consolidated balance sheets as of June 30, 2020 and 2019, and the related consolidated statements of activities and cash flows for the years then ended, and the related notes to the consolidated financial statements.

#### Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

## Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of The New School as of June 30, 2020 and 2019, and the changes in its net assets and its cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles.

#### Emphasis of Matter

As discussed in note 2(I) to the consolidated financial statements, in 2020 the university adopted new accounting guidance, Accounting Standards Update (ASU) No. 2016-18, *Statement of Cash Flows: Restricted Cash*. Our opinion is not modified with respect to this matter.

#### Other Matter

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying supplementary schedule of financial responsibility data as of and for the year ended June 30, 2020, is presented for purposes of additional analysis as required by the US Department of Education, and is not a required part of the 2020 consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2020 consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the 2020 consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the 2020 consolidated financial statements or to the 2020 consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary schedule of financial responsibility data is fairly stated, in all material respects, in relation to the 2020 consolidated financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 27, 2020, except as to note 17, which is as of June 30, 2021, on our consideration of the university's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the university's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the university's internal control over financial reporting and compliance.

October 27, 2020, except as to note 17 and our report on the supplementary schedule of financial responsibility data, which are as of June 30, 2021

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(Dollars in thousands)

#### (1) The University

The New School was founded in 1919 by a group of scholars, journalists, and civic leaders who imagined an educational venue where they could freely discuss their ideas and where dialogue could take place between intellectuals and the public. Originally devoted to exploring the pressing social, political, and economic problems of the day, The New School has since expanded its focus to embrace the arts and culture. Today, The New School offers bachelors and masters programs in the visual and performing arts in addition to bachelors, masters, doctorate, and certificate programs in the liberal arts, social sciences, and management and urban policy.

The New School comprises five colleges. They are Parsons School of Design, Eugene Lang College of Liberal Arts, College of Performing Arts, The New School for Social Research, and Schools of Public Engagement.

During 2014, The New School formed an entity, TNS Parsons, for its campus in Paris, France. The consolidated financial statements of The New School include the accounts of this affiliate (collectively referred to as the university).

The university is accredited by the Middle States Association of Colleges and Schools.

## (2) Summary of Significant Accounting Policies

#### (a) Net Asset Classifications

The university's consolidated financial statements are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles (GAAP). All material intercompany transactions and balances have been eliminated. While the underlying accounts of the university are maintained in accordance with the principles of fund accounting to facilitate observance of specific restrictions placed on the resources available to the university and to reflect how the university manages resources, the accompanying consolidated financial statements present the financial position, activities, and cash flows of the university as a whole. The university's resources are classified and reported in the accompanying consolidated financial statements within separate classes of net assets based on the existence or absence of donor-imposed restrictions as follows:

With donor-restricted net assets contain donor-imposed restrictions that stipulate the resources be maintained permanently but permit the university to use the income from the resources for either specified or unspecified purposes. Also included in this category are net assets that permit the university to use or expend the assets as specified by the donor. The restrictions are satisfied either by the passage of time or by action of the university.

Without donor-restricted net assets are not restricted by donors, or the donor-imposed restrictions have been satisfied or expired. The university's Board of Trustees has designated a portion of the net assets without donor restrictions for long-term investment (quasi-endowment) and other purposes. In addition, from time to time, the Board of Trustees may designate a portion of net assets without donor restrictions for a specified use.

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(Dollars in thousands)

Revenues are reported as increases in net assets without donor restrictions unless their use is limited by donor-imposed restrictions. Expenses are reported as decreases in net assets without donor restrictions. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in net assets without donor restrictions unless their use is restricted by explicit donor stipulation or by law. Expirations of net assets with donor restrictions are reported as net assets released from restrictions.

## (b) Cash Equivalents

Cash equivalents consist of money market funds and highly liquid financial instruments with an initial maturity of three months or less, except for those held by the university's investment managers as part of their long-term investment strategies.

## (c) Land, Buildings, and Equipment

Land, buildings, and equipment are stated at cost or, if acquired by gift, at appraised value at date of donation. Costs of building alterations are capitalized. Costs of repairs and maintenance are expensed.

Depreciation is calculated on the straight-line basis over the estimated useful lives of the related assets as follows:

	Estimated
	useful life
Buildings	40–75 years
Building improvements	15–30 years
Leasehold improvements	Lease term
Furniture and equipment	5 years
Computer equipment	3 years

#### (d) Art Collection

The university's art collection consists of works of art, including prints, paintings, photographs, and sculptures that are held for the purposes of public exhibition, education, and research. Each of the items is cataloged, preserved, and cared for, and activities verifying their existence and assessing their condition are performed by the university's curators.

The art collection, which was acquired through purchases and contributions since the university's inception, is not recognized as an asset in the consolidated balance sheets. Purchases of collection items are recorded as expenses and contributed collection items are not reported as contributions. Proceeds from sales are reflected as increases in net assets without donor restrictions.

#### (e) Contributions and Contributions Receivable

Contributions, including grants, contracts, and unconditional promises to give (pledges), are recognized as revenues in the period received. Contributions with purpose or time restrictions are reported as increases in net assets with donor restrictions and are reclassified to net assets without donor

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(Dollars in thousands)

restrictions when the purpose or time restrictions are met. Contributions subject to donor-imposed stipulations that the corpus be maintained permanently are also recognized as increases in net assets with donor restrictions. Unconditional promises to give are recognized initially at fair value as contributions revenue in the period such promises are made by donors. Fair value is estimated giving consideration to anticipated future cash receipts (after allowance is made for uncollectible contributions) and discounting such amounts at a risk-adjusted rate commensurate with the duration of the donor's payment plan. In subsequent periods, the discount rate is unchanged and the allowance for uncollectible contributions is reassessed and adjusted if necessary. Amortization of the discount is recorded as additional contribution revenue.

A contribution is conditional if the agreement includes both a barrier that must be overcome for the recipient to be entitled to the assets transferred and a right of return for the transferred assets or a right of release of the promisor's obligation to the transferred assets. Conditional promises to give are not recognized until they become unconditional, that is, when the barriers on which they depend are met. At June 30, 2020 and 2019, the university received conditional promises to give of approximately \$31,000 and \$29,000, respectively, in the form of measurable performance related or other barriers and a right of return that have not been reflected in the accompanying consolidated financial statements because the barriers on which they depend have not been met.

## (f) Split Interest Agreements

The university is the beneficiary of several split interest arrangements that require the instruments be recorded as revenue and net assets at the present value of the university's interest.

At June 30, 2020 and 2019, assets associated with split interest gifts approximate \$390 and \$410 respectively.

## (g) Fair Value of Financial Instruments

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It prioritizes the inputs to the valuation techniques used to measure fair value by giving the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The level in the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The three levels of the fair value hierarchy are as follows:

- Level 1 Valuation inputs include published net asset value (NAV) or quoted prices (unadjusted) in active markets for identical assets or liabilities that the university has the ability to access at measurement date.
- Level 2 Valuation inputs other than quoted prices included in Level 1 that are either directly or indirectly observable for the assets or liabilities.
- Level 3 Valuation inputs are unobservable inputs for the assets or liabilities.

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(Dollars in thousands)

Assets, which the university reports at fair value on a recurring basis are investments and funds held by bond trustees.

## (h) Advertising Costs

Advertising expenses reflected in the consolidated statements of activities totaled \$4,219 and \$4,566 for fiscal years 2020 and 2019, respectively.

### (i) Estimates

The preparation of the consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingencies at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates made in the preparation of the consolidated financial statements include valuation of investments at fair value and estimated net realizable value of receivables. Actual results could differ from those estimates.

## (j) Income Taxes

The university is exempt from federal income taxes pursuant to Section 501(c)(3) of the Internal Revenue Code, except for any unrelated business income activities. The university recognizes the effects of income tax positions only if those positions are more likely than not of being sustained. The university evaluates, on an annual basis, the effects of any uncertain tax positions on its consolidated financial statements. As of June 30, 2020 and 2019, the university has not identified or provided for any such positions.

#### (k) Operations

The consolidated statements of activities present the changes in net assets, distinguishing between operating and nonoperating activities. Operating activities principally include all revenue and expenses that relate to the university's educational programs, research, training, and supporting activities. Operating revenues include the investment return pursuant to the university's spending policy and earned on working capital funds. Operating revenues also include all contributions, except those that contain donor-imposed restrictions.

The university has defined nonoperating activities principally to include endowment investment return net of amounts distributed to support operations in accordance with the endowment spending policy (note 10), contributions subject to donor-imposed restrictions, net assets released from restrictions for capital expenditure, and activity related to annuity and unitrust agreements. Certain other gains, losses, or transactions considered to be of a more unusual or nonrecurring nature are also included as part of nonoperating activities.

#### (I) New Accounting Pronouncements

(i) Accounting Standards Update (ASU) No. 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash – This guidance, effective for the university's fiscal year ended June 30, 2020, is intended to address the diversity that exists in the classification and presentation of changes in restricted cash or restricted cash equivalents on the consolidated statement of cash flows. The university applied the amendments in this ASU using a retrospective transition method.

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(Dollars in thousands)

(ii) ASU No. 2016-02, Leases (Topic 842) as amended by ASU No. 2019-01– This guidance, and ASU 2020-05: Revenue from Contracts with Customers and (Topic 606) and Leases (Topic 842): Effective Dates for Certain Entities, effective for the university's fiscal year ending June 30, 2021, is designed to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the consolidated balance sheets and disclosing key information about leasing arrangements. The university is currently evaluating the impact of this ASU and expects to apply it using the modified retrospective approach for the year ending June 30, 2021.

#### (m) Reclassifications

Certain reclassifications of 2019 amounts have been made to conform to the 2020 presentation.

## (3) Impact of COVID-19

The COVID-19 pandemic has impacted global, national, state, and local economies, as well as the higher education landscape. As a result of the coronavirus pandemic (COVID-19), the university provided refunds to students of \$8,821 of room and board fees for services the university could no longer provide for the remainder of the spring 2020 semester. In April 2020, in anticipation of the outbreak's adverse effects, the university implemented expenditure reductions.

The university received an allocation from the Higher Education Emergency Relief Fund (HEERF) established under the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) of \$4,996 which included \$2,498 to provide emergency aid to eligible students and \$2,498 to mitigate the financial losses associated with COVID-19 disruptions to the university. As of June 30, 2020, \$328 was included in deferred revenue on the consolidated balance sheet as \$164 was not yet distributed to students.

There continues to be significant uncertainty around the breadth and duration of business disruptions related to COVID-19 as well as its impact on the U.S. and international economies. As such, the university is unable to determine if it will have a material impact to its financial statements in the future.

## (4) Student Services

#### (a) Tuition and Auxiliary Activities

Tuition and fees, and room and board revenues are recognized in the fiscal year in which the academic programs and residential services are delivered. Institutional scholarships awarded to students reduce the amount of tuition and fees revenue recognized. Room and board revenues are reported in auxiliary activities in the accompanying consolidated statements of activities. Payments for tuition and fees and residential services are generally due prior to the start of the academic term in accordance with the university's due dates. Generally, students who adjust their course load or withdraw completely within one to four weeks of the academic term may receive a full or partial refund in accordance with the university's refund policy. Refunds issued reduce the amount of revenue recognized.

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(Dollars in thousands)

The university provided academic baccalaureate degrees to domestic and international students as follows:

	 2020	2019
Undergraduates Graduates	\$ 7,771 3,199	7,300 3,100
	\$ 10,970	10,400
New York Other domestic Other countries	 19 % 47 34	20 % 46 34
	 100 %	100 %

## (b) Scholarship Allowance

Student tuition and fees are presented net of amounts awarded to students to defray their costs of attending the university as follows:

	_	2020	2019
University support	\$	137,324	130,017
Sponsored support	_	7,175	6,298
	\$ _	144,499	136,315

University support includes tuition discounts, financial aid, and merit scholarships awarded to students from operating resources with no donor restrictions. Sponsored support includes financial aid and scholarships funded from restricted and external sources.

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(Dollars in thousands)

#### (c) Student Accounts and Loans Receivable

Student accounts and loans receivable consisted of the following at June 30, 2020 and 2019:

	 2020	2019
Student accounts receivable:		
Student accounts receivable	\$ 35,815	29,130
Less allowance for uncollectible accounts	(19,866)	(17,711)
	\$ 15,949	11,419
Student loans receivable:		
Student loans (Perkins loans)	\$ 4,288	4,549
Less allowance for uncollectible loans	 (1,938)	(1,978)
	\$ 2,350	2,571

## (d) Deferred Revenue

The university recognizes revenue from student tuition and fees within the fiscal year in which the academic term is conducted as performance obligations are satisfied. Amounts collected in advance of such revenue recognition are deferred. Deferred revenues are typically recognized as revenue in the subsequent fiscal year.

Other liabilities primarily include amounts received in advance for services, which are recognized as performance obligations are satisfied, and tenant improvement allowances from a landlord, which are recognized over the life of the contract.

As of June 30, deferred revenues and other liabilities consisted of the following:

		2020	2019
Deferred student tuition and fees	\$	5,760	6,195
Other liabilities	_	3,642	6,727
	\$	9,402	12,922

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(Dollars in thousands)

#### (5) Investments

Investments at fair value consisted of the following at June 30, 2020 and 2019:

	2020	2019
Endowment investments:		
Cash and cash equivalents	\$ 60,046	29,354
Public equity	72,342	137,089
Fixed income	45,152	36,900
Hedge funds	157,008	152,393
Private equity	29,691	21,894
Real assets	 29,132	20,837
	 393,371	398,467
Operating and other investments:		
Cash and cash equivalents	35,206	24,287
Public equity	327	167
Fixed income	92	71
Real assets	 1,100	2,665
	36,725	27,190
	\$ 430,096	425,657

Investments in debt and equity securities with readily determinable fair values are reported at fair value based upon quoted market prices or published NAV for investments in funds with characteristics similar to a mutual fund.

In addition to traditional equities and fixed income securities, the university holds shares or units in alternative investment funds involving fixed income, hedged, private equity, and real asset strategies. The estimated fair values of these investments are, as a practical expedient, based on NAV provided by the fund managers. These values are reviewed and evaluated by the university's management. The reported value may differ significantly from the values that would have been reported had a ready market for these investments existed. Information with respect to investment strategies, redemption terms, and funding commitments for these investments is as follows:

Fixed Income – Fixed income includes limited liability partnerships that invest primarily in domestic middle market companies, a bond fund composed of shorter-duration U.S. government, agencies, and instrumentality obligations and U.S. treasuries. The redemption periods for these fixed income funds range from daily to no redemption. Remaining commitments to funds in this category total \$3,925 as of June 30, 2020.

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(Dollars in thousands)

Hedge Funds – Hedged strategies involve funds whose managers have the authority to invest in various asset classes at their discretion, including the ability to invest long and short. Funds with hedged strategies generally hold securities or other financial instruments for which a ready market exists and may include stocks, bonds, put or call options, swaps, currency hedges, and other instruments, and are valued accordingly. Hedged strategies generally seek to benefit from opportunities as they occur in the markets due to temporary dislocations or structural inefficiencies. The university's hedge funds are mostly long/short but also include diversifying and equity oriented. The redemption periods for these hedge funds range from monthly to no redemption. There are no remaining commitments to funds in this category total as of June 30, 2020.

*Private Equity* – Private equity funds employ buyout and venture capital strategies and may focus on investments in turn-around situations. Positions focus on the purchase, development, improvement, and management of companies that are not publicly traded on a stock exchange. These investments are made through limited partnerships that have a limited existence, generally 10 years. Under the terms of the agreements, the university is obligated to remit additional funding periodically as capital calls are exercised by the manager. Distributions are made to investors through the liquidation of the underlying assets. There are no redemptions for private equity funds. Remaining commitments to funds in this category total \$45,447 as of June 30, 2020.

Real Assets – The university's real assets principally comprise gold bullion and real estate. The real estate investment strategies include the purchase and management of global residential, commercial, and industrial real estate with value attempted to be realized through both improved operations and gains on eventual sale. The redemption periods for real assets range from daily to no redemption. Remaining commitments in this category total \$22,108 as of June 30, 2020.

The university uses foreign currency spots/forward contracts to manage risks generally associated with foreign exchange rate market volatility. The hedge is designed to protect against a material rise in the euro. At June 30, 2020 and 2019, the fair market value of these contracts which is included in other income on the consolidated statements of activities resulted in an unrealized loss of \$400 and \$441, respectively.

Notes to Consolidated Financial Statements

## (7) Land, Buildings, and Equipment

Land, buildings, and equipment consisted of the following at June 30, 2020 and 2019:

	_	2020	2019
Land and air rights	\$	81,107	81,107
Buildings and building improvements		771,957	754,823
Leasehold improvements		80,683	79,219
Furniture and equipment		40,658	56,426
Construction in progress (note 14)	_	62,525	13,635
		1,036,930	985,210
Less accumulated depreciation	_	(248,353)	(240,206)
Total land, buildings, and equipment – net	\$_	788,577	745,004

On April 2, 2018, a fire occurred at one of the university's properties. The assets lost in the fire were fully depreciated. Following the incident, the university filed insurance claims. The university received claim advances totaling \$467 and \$3,135 during the years ended June 30, 2020 and 2019, respectively, resulting in a gain from casualty loss.

## (8) Debt

Long-term debt consisted of the following at June 30, 2020 and 2019:

Description	Maturity date	Interest rate	2020	2019
Dormitory Authority of the State				
of New York Revenue Bonds:				
Series 2016A	July 1, 2050	3.00%-5.00% \$	316,040	316,040

(Dollars in thousands)

#### Maturity

Description	date	Interest rate	_	2020	2019
Less:					
Unamortized bond issuance costs				(3,534)	(3,792)
Unamortized discount				(291)	(392)
Add unamortized premium				45,280	46,857
			\$	585,905	595,443

In November 2016, the university issued \$316,040 Series 2016A tax-exempt serial and term bonds, and \$86,420 Series 2016B taxable serial and term bonds through the Dormitory Authority of the State of New York (the Dormitory Authority). The bonds financed the acquisition of a commercial building for use by the university and advance refund Series 2010 bonds (\$244,000) with maturities in fiscal years 2021 through 2050. Net premiums received at the time of issuance of the 2016 bonds totaled \$34,172 (\$30,450 unamortized at June 30, 2020). The Series 2016A serial bonds are due in varying annual installments commencing in fiscal years 2022 through 2038. The term bonds are due in fiscal years 2042, 2044, 2047 and 2051. The Series 2016B serial bonds are due in varying annual installments commencing in fiscal years 2018 through 2027. The one term bond is due in fiscal year 2039. The university pledged tuition and fee revenue in connection with the issuance. There are no related mortgage pledges or financial covenants.

In May 2015, the university issued \$124,290 Series 2015 tax-exempt serial and term bonds through the Dormitory Authority to current refund Series 1999, Series 2001 and Series 2005 bonds and advance refund Series 2006 and a portion of Series 2010 bonds. The serial bonds are due in varying annual installments through fiscal year 2036. Net premiums received at the time of issuance of the 2015 bonds totaled \$16,132 (\$13,598 unamortized at June 30, 2020). Term bonds are due in fiscal years 2041, 2046, and 2051. The university pledged tuition revenues and executed mortgages on properties located at 22-26 East 14th Street, 72 Fifth Avenue and 116-118 West 13th Street, and a security interest in certain fixtures, furnishings, and equipment located in or used in connection with these properties. This collateral is shared on a pro-rata basis among the Series 2015 bonds and the remaining outstanding Series 2011 bonds.

In October 2011, the university issued \$35,480 Series 2011 tax-exempt serial and term bonds through the Dormitory Authority to cash defease a portion of the outstanding Series 1999 and Series 2001 issues. The serial bonds are due in varying annual installments through fiscal year 2027. Net premiums received at the time of issuance of the 2011 bonds totaled \$1,789 (\$941 unamortized at June 30, 2020). Term bonds are due in fiscal years 2024, 2026, and 2032.

In November 2010, the university entered into a loan agreement with the Dormitory Authority to issue \$301,055 in tax-exempt serial and term bonds to finance the construction of the University Center, which is an academic building and a 617-bed dormitory on top of the academic floors, located at 65 Fifth Avenue. The remaining serial bonds are due in varying annual installments through 2020. The university executed a mortgage on 65 Fifth Avenue as collateral for the loan.

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(Dollars in thousands)

The Series 2015, 2011, and 2010 loan agreements require the university to maintain an asset maintenance ratio in which a percentage of net assets without donor restrictions, excluding net investment in plant, plus spendable net assets to total long-term debt outstanding must be at least 40%. At June 30, 2020, the university was in compliance.

In June 2020, the university entered into a \$2,000 unsecured promissory note with a lender. Principal is due within thirty months with interest payable at a rate of 1% annually. \$2,000 was outstanding as of June 30 2020.

For the years ended June 30, 2020 and 2019, interest expense totaled \$23,523 and \$23,962, respectively. At June 30, 2020 and 2019, interest payable included in accounts payable and accrued liabilities was \$12,281 and \$12,490, respectively.

At June 30, 2020, aggregate principal maturities of long-term debt for each of the next fiscal years and thereafter are as follows:

Fiscal year ending June 30:	
2021	\$ 11,231
2022	12,685
2023	10,769
2024	10,560
2025	11,540
Thereafter	 487,665
	\$ 544,450

## Short-Term Debt

On June 10, 2016, the university entered into a margin agreement with its investment custodian to loan up to 92% of custodial liquid investments with interest payable at a rate equal to the London Interbank Offered Rate (LIBOR) plus 0.35% to be secured by treasuries, money market and exchange-traded funds. \$15,000 borrowings were outstanding as of June 30 2020 and no borrowings were outstanding at June 30 2019.

The university established a \$25,000 unsecured line of credit with a bank in May 2011, renewable annually. Amounts borrowed under the credit line are payable within one year with interest payable at a rate equal to LIBOR plus 0.7%. The LIBOR is one, two, three, or six months as selected by the university. The loan will automatically convert to a prime rate if the university does not select a LIBOR duration at least three business days prior to the date of borrowing. \$15,000 borrowings were outstanding as of June 30, 2020 and no borrowings were outstanding at June 30, 2019.

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(Dollars in thousands)

## (9) Funds Held by Bond Trustees

Debt service funds held by the bond trustees consisted of the following at June 30, 2020 and 2019:

	2020	2019
Cash and cash equivalents U.S. Treasury securities	\$ 23,190	3 3
	\$ 23,190	22,946

The funds held by bond trustees at June 30, 2020 and 2019 are reported at fair value and are classified as Level 1 in the fair value hierarchy.

## (10) Net Assets

Net assets consisted of the following at June 30, 2020 and 2019:

	 2020	2019
Without donor restrictions:		
Board-designated endowment	\$ 239,578	245,868
Other board-designated	197	295
Net investment in plant	170,862	172,507
Undesignated	 (58,442)	(57,720)
	 352,195	360,950
With donor restrictions:		
Subject to expenditure when a specified event occurs:		
Scholarships	3,602	4,110
Education and research	25,080	25,323
Contribution receivable	16,229	20,050
Other	3,483	3,108

Total net assets with donor restrictions	 213,997	216,701
Total net assets	\$ 566,192	577,651

#### Endowment

The university's endowment is composed of 332 individual funds, at June 30, 2020, established for a variety of purposes, including scholarships, professorships, faculty development, lectures, and research programs. The endowment consists of both donor-restricted endowment funds and funds designated by the Board of Trustees to function as endowments. Net assets associated with endowment funds, including funds functioning as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

The university has interpreted New York's enacted version of the Uniform Prudent Management of Institutional Funds Act (UPMIFA), referred to as "NYPMIFA," as allowing the appropriation for expenditure or accumulation of an endowment fund as the university determines it prudent for the uses, benefits, purposes, and duration for which the endowment fund is established, subject to the intent of the donor as expressed in the gift instrument. The university classifies as net assets with donor restrictions, (a) the original value of gifts donated to the endowment; (b) the original value of subsequent gifts to the endowment; and (c) respective accumulations of income to the endowment made in accordance with the direction of the applicable donor gift instruments, if any, on an individual endowment fund is classified as net asset with donor restrictions until appropriated by the university.

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(Dollars in thousands)

In accordance with NYPMIFA, the Board of Trustees considers the following factors in making a determination to appropriate or accumulate endowment funds:

- Endowment duration and preservation
- Purpose/mission of the institution and endowment
- General economic conditions
- Effect of inflation or deflation
- The expected total return from income and the appreciation of investments
- The university's total resources
- The university's investment policy
- An asset's special relationship or special value, if any, to the purposes of the university

NYPMIFA allows spending from underwater endowments, unless precluded by donors, but requires that the university consider alternatives to spending such funds in addition to the aforementioned criteria.

The university's individual endowment funds are pooled for investment purposes. The investment portfolio is managed to achieve a prudent long-term return. The university relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The university targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints. The endowment assets are invested to provide a real total return that preserves the purchasing power of the endowment while generating an income stream to support the academic activities of the university. Actual returns may vary from this goal in any given year.

The university's endowment spending policy is designed to provide a sustainable and predictable flow of funds to support annual operations. The spending policy is intended to balance current spending needs and to preserve the endowment's future purchasing power. The university applies a board-specified spending rate to a moving average of endowment investment funds. The purpose of using a moving average is to smooth out any wide fluctuations in the market value. Endowment earnings in excess of the spending rate are added back to the principal of the endowment investments.

Prior to fiscal year 2012, the board-specified spending rate was 5%. Beginning with fiscal year 2012, the spending rate was reduced to 4% using a "soft landing" approach. The fiscal year 2011 appropriation will be used as the annual appropriation for the existing endowment funds until the value of those funds increases sufficiently over time to result in an effective 4% spending rate. New funds are appropriated at the 4% spending rate calculated on the previous 16 quarters' fair value.

In accordance with the spending policy, \$16,227 and \$16,224 of endowment return was made available in fiscal years 2020 and 2019, respectively, to support operations of the university.

# Notes to Consolidated Financial Statements June 30, 2020 and 2019 (Dollars in thousands)

The following tables present the university's endowment, exclusive of pledges, as of and for the years ended June 30, 2020 and 2019:

			2020	
		Without donor restrictions	With donor restrictions	Total
Donor-restricted endowment funds Board-designated endowment funds	\$_	 239,578	153,900 	153,900 239,578

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(Dollars in thousands)

Changes in endowment net assets for the year ended June 30, 2019 are as follows:

	_	Without donor restrictions	With donor restrictions	Total
Endowment net assets, as of June 30, 2018	\$	244,186	147,946	392,132
Net investment return		11,354	6,584	17,938
Contributions, net		_	5,159	5,159
Appropriation for spending		(9,924)	(6,300)	(16,224)
Transfer to board-designated funds	_	252		252
Endowment net assets, as of June 30, 2019	\$	245,868	153,389	399,257

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or NYPMIFA requires the university to retain as a fund of perpetual duration. In accordance with GAAP, the deficiencies of this nature that are reported in net assets with donor restrictions totaled \$444 and \$188 at June 30, 2020 and 2019, respectively. These deficiencies resulted from unfavorable market fluctuations that occurred shortly after the investment of new contributions which in accordance with the donors' intent, are maintained permanently, or other endowment funds where the cumulative appropriation has exceeded the accumulated appreciation; the university suspends spending endowed funds if spending appropriations, as determined under the spending policy, exceed the accumulated appreciation.

At June 30, 2020 and 2019, the amount by which funds was underwater was calculated as follows:

	 2020	2019
Aggregate original gift amount	\$ 1,526	1,526
Aggregate fair value	 (1,082)	(1,338)
Aggregate deficiency	\$ 444	188

#### Net Assets Released from Restrictions

Net assets were released from donor restrictions due to the passage of time or by incurring costs satisfying the restricted purposes specified by the donors for fiscal years 2020 and 2019 as follows:

	 2020	2019
Scholarships and departmental activities	\$ 31,995	28,480
Payments received on pledges	 1,632	898
Total net assets released from restrictions	\$ 33,627	29,378

(Dollars in thousands)

## (11) Expenses

Expenses by functional classification for fiscal years 2020 and 2019 are as follows:

	2020						
Functional expenses		Salaries and benefits	Occupancy costs	General business expenses	Professional services	Interest and depreciation	Total
Instruction and departmental research	\$	121,489	11,704	2,527	1,467	16,582	153,769
Sponsored research and public services		8,052	601	3,700	4,223	283	16,859
Academic support		65,330	8,476	8,775	3,334	8,803	94,718
Student services		26,996	1,703	5,474	3,893	1,457	39,523
Auxiliary activities		3,668	19,480	3,745	492	16,419	43,804
Institutional support	_	45,696	4,885	15,869	5,673	7,031	79,154
Total	\$_	271,231	46,849	40,090	19,082	50,575	427,827

	2019						
Functional expenses		Salaries and benefits	Occupancy costs	General business expenses	Professional services	Interest and depreciation	Total
Instruction and departmental research	\$	119,831	11,826	4,068	2,272	17,793	155,790
Sponsored research and public services		7,828	642	3,841	4,560	401	17,272
Academic support		62,960	7,216	9,275	2,738	9,123	91,312
Student services		22,967	1,824	2,396	4,714	1,440	33,341
Auxiliary activities		7,386	20,629	5,731	866	17,540	52,152
Institutional support	_	38,103	5,258	15,069	5,268	6,904	70,602
Total	\$_	259,075	47,395	40,380	20,418	53,201	420,469

Operations and maintenance of plant, including interest and depreciation, are allocated based upon square footage across the functional expense categories as follows:

		2020				2019	
Functional expenses		Interest	Operation and maintenance of plant	Depreciation	Interest	Operation and maintenance of plant	
Instruction and departmental research	\$	6,298	18,192	10,284	6,619	19,485	11,174
Sponsored research and public services		70	897	213	143	966	258
Academic support		3,799	9,998	5,004	4,002	9,417	5,121
Student services		509	2,368	948	444	2,510	996
Auxiliary activities		10,690	6,495	5,729	10,734	6,663	6,806
Institutional support	_	2,157	7,386	4,874	2,020	8,259	4,884
Total	\$_	23,523	45,336	27,052	23,962	47,300	29,239

## Fundraising

Fundraising expenses of \$4,784 and \$4,743 for the years ended June 30, 2020 and 2019, respectively, are included in institutional support in the accompanying consolidated statements of activities. For the purpose

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(Dollars in thousands)

of disclosing fundraising expenses, the university includes only those fundraising costs incurred by its development office.

## (12) Commitments and Contingencies

The university leases dormitory, classroom, office, student center, and theater space under various leases expiring through the year 2035. Rent expense is recognized on a straight-line basis over the term of the leases. The excess of rent expense accrued on a straight-line basis over rental payments is included in accounts payable and accrued liabilities in the consolidated balance sheets and totaled \$16,937 and \$17,329 at June 30, 2020 and 2019, respectively. Rental expense under operating leases for fiscal years 2020 and 2019 was \$23,246 and \$23,863, respectively.

Minimum rental commitments under noncancelable operating leases for each of the next five fiscal years and thereafter are estimated to be paid as follows:

Year ending June 30:		
2021	\$	23,586
2022		23,955
2023		23,891
2024		32,156
2025		14,657
Thereafter	_	67,332
	\$	185,577
	Ψ_	100,011

At June 30, 2020, construction commitments were approximately \$1,147.

Amounts received and expended by the university under various federal and state programs are subject to audit by government agencies. In the opinion of management, audit adjustments, if any, would not have a material effect on the financial position, changes in net assets, and cash flows of the university.

In the normal course of its operations, the university is a party to various legal proceedings and complaints, most of which are covered by insurance. While it is not feasible to predict the ultimate outcome of such matters, management of the university is not aware of any claims or contingencies that would have a material adverse effect on the university's financial position.

## (13) Retirement and Postretirement Health Benefit Plans

#### (a) Retirement Plans

The university has a defined-contribution retirement plan that covers substantially all employees, except certain union employees, and which is funded through direct payments to Teachers Insurance and Annuity Association of America (TIAA) for the purchase of various types of investment contracts. For each eligible employee, the university's contribution is determined as a percentage of salary, taking into account age and length of accrued service. Retirement contributions paid by the university under

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(Dollars in thousands)

this plan and charged to expense for fiscal years 2020 and 2019 were \$16,098 and \$15,552, respectively.

## (b) Multi Employer Plans

At June 30, 2020, the university participated in four multi-employer pension plans established under collective bargaining agreements that cover certain groups of employees throughout the university, and reflected in the table below. These groups of employees are also eligible to participate in the New School 403(b) Retirement Plans. The university makes cash contributions to these plans under the terms of the collective-bargaining agreements that cover its union employees.

The zone status reflected in table below is based on information received from the plan sponsors and, as required by the Pension Protection Act (PPA), is certified by each plan's actuary. Among other factors, plans in the red zone are generally less than 65% funded, plans in the yellow zone are less than 80% funded, and plans in the green zone are at least 80% funded. A zone status of red requires the plan sponsor to implement a Funding Improvement Plan (FIP) or Rehabilitation Plan (RP). Effective August 1 2018, American Federation of Musicians & Employers' Pension Fund (AFMEPF Local 802) imposed surcharge of 9% of contributions, was increased to an additional 10%, while the plan is in critical status. The additional 10% in the rate of contributions will not be used to calculate any participant's benefits under the plan, but will be used solely to improve the financial health of the Plan.

The "FIP/RP Status Pending/Implemented" column indicates plans for which an FIP or RP, as required by PPA, is either pending or has been implemented by the plan's sponsor. The university's contribution is also disclosed below followed by the expiration dates of the collective bargaining agreements requiring contributions to the plans.

The percentage of the university's contributions to Local 840 Pension Fund as of December 31, 2019 and 2018 represents 94% and 95% of the total contributions to the plan, respectively. The university's contributions to Building Service 32BJ Benefit Funds, Local 802 (AFMEPF) and Local 94 (Central Pension Fund) were insignificant to the plan.

•	Expiration date of collective
•	bargaining agreement
paid	agreement
No	June 30, 2022
Yes	June 30, 2020
No	October 31, 2020

_	

The university is currently in the process of renegotiating the expired collective bargaining agreement.

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(Dollars in thousands)

#### (c) Postretirement Health Plans

The university provides certain healthcare benefits for past and future nonunion full-time employees who have or will retire at 65 years of age with 10 or more years of service. This benefit pays up to \$1,500 per fiscal year for the cost of premiums to either a Medigap plan, a Part D prescription drug plan, or a Medicare Advantage Plan (also known as a Medicare Part C plan).

The university funds its postretirement benefits costs on a pay-as-you-go basis. As of June 30, 2020, and 2019, the actuarially determined benefit obligation included in accounts payable and accrued liabilities was \$4,348 and \$3,675, respectively.

#### (14) Related Party Transactions

Members of the university's Board of Trustees and senior management may, from time to time, be associated, either directly or indirectly, with companies doing business with the university. The university's conflict of interest policy requires, among other things, that no member of the Board of Trustees or its committees participate in any decision in which he or she (or an immediate family member) has a material financial interest. For members of the Board of Trustees and senior management, the university requires an annual disclosure of significant financial interests in, or employment or consulting relationships with, entities doing business with the university. When such relationships exist, measures are taken to address the actual or perceived conflict to protect the best interests of the university and ensure compliance with relevant conflict of interest laws.

During fiscal 2020, the Board of Trustees approved an agreement to purchase a leasehold interest in a condominium which allows the right to use a facility located near campus through 2069 with an entity associated with a trustee. The purchase price will be paid in annual installments of \$4,750 commencing January 2021. The terms of the agreement require the university to pay annual common charges equal to \$4,750 plus escalations, through 2069. As of June 30, 2020, approximately \$55,000 of construction costs were incurred and capitalized as construction in progress and other long-term liability on the consolidated balance sheets. The university took possession of the facility in fall 2020 and will use the facility as a dormitory for its students.

Consistent with the policy discussed above, the decision to engage the firm was based on a review and discussion without participation of the interested trustee, with the assistance of real estate consultants and outside counsel, and a determination that such engagement was in the best interest of and provided substantial benefit to the university. No such relationships existed during the fiscal year ended June 30, 2019.

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(Dollars in thousands)

## (15) Liquidity and Availability

The university's financial assets available for general expenditures within one year of the consolidated balance sheets as of June 30, 2020 and 2019 are as follows:

		2020	2019
Cash and cash equivalents	\$	7,767	1,476
Student accounts receivable, net		15,949	11,419
Contributions receivable, net		30,585	31,892
Investments		430,096	425,657
Funds held by bond trustees		23,190	22,946

Board-designated art fund, unavailable without board approval	_	197_	295
Financial assets available to meet general			
expenditures within one year	\$_	57,478	46,596

The university continually monitors liquidity required to meet its operating needs and other contractual commitments, while also looking to maximize the investment of its available funds. For purposes of analyzing resources available to meet general expenditures over a twelve month period, the university considers all expenditures related to its ongoing mission related activities, including those for plant and debt service and exclusive of expenditures for plant that are financed by contributions, as well as the conduct of services undertaken to support those activities, to be general expenditures. In addition to financial assets available to meet general expenditures over the next twelve months, the university operates within a balanced budget and anticipates collecting sufficient revenue to cover general expenditures. The consolidated statements of cash flows identifies the sources and uses of the university's

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(Dollars in thousands)

cash and shows positive cash generated by operations for the years ended June 30, 2020 and 2019. The university invests funds in excess of current requirements in various short-term, highly liquid investments.

The university excludes funds that are board-designated as quasi endowment, from assets available to meet general expenditures. These funds are invested for long-term appreciation and current appropriation, and may be spent at the discretion of the board. In addition, funds held by bond trustees are not considered to be available for general expenditures because these funds are used solely to service long-term debt.

Student loans receivable are not considered to be available for general expenditures because these funds are used solely to make new loans and split interest agreements are not considered to be available for general expenditures because these funds are not solely owned by the university.

Further, the university maintains two vehicles to provide short-term cash if needed, an unsecured line of credit and a margin agreement. While total availability varies, it is generally in excess of \$50,000. As of June 30, 2020, a combined total of \$30,000 borrowings was outstanding. See note 8 for more information on these two arrangements.

## (16) Subsequent Events

The university evaluated subsequent events after the consolidated balance sheet date of June 30, 2020 through October 27, 2020, the date on which the consolidated financial statements were issued and determined that the following additional disclosures should be included:

On September 16, 2020, members of the Finance committee of the Board of Trustees approved a maximum of \$80,000 to be withdrawn from the quasi endowment to meet budget shortfalls.

In response to the fiscal effects of COVID-19, the university continued expenditure reductions it implemented during fiscal 2020 into fiscal 2021, including salary reductions, furloughs, suspension of certain employee benefits, and reduced capital construction. In addition, the university has undertaken targeted layoffs and other actions intended to improve operational efficiency going forward. The university transitioned fall 2020 instruction to online delivery, and will make decisions regarding instruction for spring 2021 at a later date.

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(Dollars in thousands)

## (17) Financial Responsibility Standards

The University participates in federal Title IV student financial assistance programs, which require the University to meet standards of financial responsibility based on criteria determined by the U.S. Department of Education (ED), as set forth in 34 CFR 668.171. The criteria for private institutions include the annual calculation by ED of a financial responsibility composite score, as further outlined in 34 CFR 668.172, using audited financial statements submitted through ED's EZ Audit system. The composite score has been and will continue to be based on three ratios: primary reserve, equity, and net income. The following inputs to these ratios as of and for the year ended June 30, 2020 are not otherwise presented in the consolidated financial statements or other notes to the consolidated financial statements.

Data element	Direct input to ratio	Amount
Composition of land, buildings, and equipment:		
Pre-implementation land, buildings, and equipment, net	Primary reserve \$	716,192
Post-implementation land, buildings, and equipment, net	Primary reserve	9,860
Construction in progress	NA	62,525
Total land, buildings, and equipment, net		
(consolidated balance sheet)	NA \$	788,577

Pre-implementation land, buildings, and equipment were acquired prior to July 1, 2019. Post-implementation land, buildings, and equipment were acquired after July 1, 2019 (fiscal 2020).

Composition of long-term debt:		
Pre-implementation long-term debt, net	Primary reserve \$	583,905
Post-implementation long-term debt, net	NA	2,000
Total long-term debt, net (consolidated balance sheet)	NA	585,905

All debt is considered pre-implementation long-term debt as it was issued prior to July 1, 2019, except for the \$2,000 unsecured promissory note entered into in June 2020.

Schedule of Financial Responsibility Data

Notes to Schedule of Expenditures of Federal Awards
June 30, 2020

# (1) Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (Schedule) includes the federal award activities of The New School (the university) under programs of the federal government for the year ended June 30, 2020. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the activities of the university, it is not intended to, and does not, present either the consolidated financial position, changes in net assets or cash flows of the university.

# (2) Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The university has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance. Indirect costs are allocated to individual grants within the Schedule in accordance with contractual provisions of each grant. The indirect costs are calculated based upon either a three-year negotiated rate with the Department of Health and Human Services effective through June 30, 2020 or the specific requirements of the particular grant.

#### (3) Federal Direct Student Loans (CFDA #84.268)

For the Federal Direct Student Loan Program, the university is responsible only for the performance of certain administrative duties; therefore, the program's net assets and transactions are not included in the university's consolidated financial statements, and it is not practicable to determine the balance of loans outstanding to students.

# (4) Federal Perkins Loan Program (CFDA #84.038)

The university extended loans through a revolving federal loan program which ended in fiscal year 2018. Principal and interest relating to outstanding loans are being repaid to the university. The balance of the outstanding loans made by the university under the Federal Perkins Loan Program at June 30, 2020 and 2019 was \$4,288,429 and \$4,549,177, respectively.

KPMG LLP 345 Park Avenue New York, NY 10154-0102

# Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

The Board of Trustees The New School:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the consolidated financial statements of The New School (the university), which comprise the consolidated balance sheet as of June 30, 2020, and the related consolidated statements of activities and cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated October 27, 2020, except as to note 17, which is as of June 30, 2021. That report contained an unmodified opinion on those consolidated financial statements with an emphasis of matter paragraph regarding the university's adoption of Accounting Standards Update (ASU) No. 2016-18, *Statement of Cash Flows: Restricted Cash*.

# **Internal Control Over Financial Reporting**

In planning and performing our audit of the consolidated financial statements, we considered the university's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of the university's internal control. Accordingly, we do not express an opinion on the effectiveness of the university's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the university's consolidated financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

# **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the university's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the university's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

KPMG LLP

October 27, 2020, except as to note 17, which is as of June 30, 2021

KPMG LLP 345 Park Avenue New York, NY 10154-0102

# Independent Auditors' Report on Compliance for Each Major Federal Program; Report on Internal Control Over Compliance; and Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

The Board of Trustees The New School:

#### Report on Compliance for Each Major Federal Program

We have audited The New School's (the university) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the university's major federal programs for the year ended June 30, 2020. The university's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

# Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

# Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the university's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the university's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the university's compliance.

# Opinion on Each Major Federal Program

In our opinion, the university complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

#### Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2020-001 and 2020-002. Our opinion on each major federal program is not modified with respect to these matters.

The university's responses to the noncompliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The university is also responsible for preparing a corrective action plan to address each audit finding included in our auditors' report. The university's response and corrective action plan were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses or the corrective action plan.

# **Report on Internal Control Over Compliance**

Management of the university is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the university's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the university's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identify deficiencies in internal control over compliance, described in the accompanying schedule of findings and questioned costs as items 2020-001 and 2020-002 that we consider to be significant deficiencies.

The university's responses to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The university is also responsible for preparing a corrective action plan to address each audit finding included in our auditors' report. The university's responses and corrective action plan were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response or the corrective action plan.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

# Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the consolidated financial statements of the university as of and for the year ended June 30, 2020 and 2019, and have issued our report thereon dated October 27, 2020, except as to note 17, which is as of June 30, 2021 which contained an unmodified opinion on those consolidated financial statements. Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedule of expenditures of federal awards for the year ended June 30, 2020 is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the 2020 consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2020 consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the 2020 consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the 2020 consolidated financial statements or to the 2020 consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the 2020 consolidated financial statements as a whole.

June 30, 2021

# Schedule of Findings and Questioned Costs June 30, 2020

# (1) Summary of Auditors' Results

- (a) Type of report issued on whether the consolidated financial statements were prepared in accordance with generally accepted accounting principles: **Unmodified**
- (b) Internal control deficiencies over financial reporting disclosed by the audit of the consolidated financial statements:
  - Material weaknesses: No
  - Significant deficiencies: None reported
- (c) Noncompliance material to the consolidated financial statements: No
- (d) Internal control deficiencies over major programs disclosed by the audit:
  - Material weaknesses: No
  - Significant deficiencies: Yes (2020-001 and 2020-002)
- (e) Type of report issued on compliance for the major program: Unmodified
- (f) Audit findings that are required to be reported in accordance with 2 CFR 200.516(a): **Yes (2020-001 and 2020-002)**
- (g) Major programs:
  - Student Financial Assistance Cluster (various CFDA numbers)
  - Higher Education Emergency Relief Fund CFDA numbers 84.425E and 84.425F
- (h) Dollar threshold used to distinguish between Type A and Type B programs: \$750,000
- (i) Auditee qualified as a low-risk auditee: Yes
- (2) Findings Relating to the Consolidated Financial Statements Reported in Accordance with Government Auditing Standards

None

(3) Findings and Questioned Costs Relating to Federal Awards

2020-001 Significant Deficiency and Noncompliance: Reporting

Federal Program

Student Financial Assistance Cluster:

Federal Pell Grant Program CFDA 84.063

Federal Agency

U.S. Department of Education

Schedule of Findings and Questioned Costs
June 30, 2020

Federal Award Year: July 1, 2019 to June 30, 2020

Statistically valid sample: No and it was not intended to be.

#### Criteria

Schools submit Pell origination records and disbursement records to the Common Origination and Disbursement (COD). Origination records can be sent well in advance of any disbursements, as early as the school chooses to submit them for any student the school reasonably believes will be eligible for a payment. A school follows up with a disbursement record for that student no earlier than (1) 7 calendar days prior to the disbursement date under the Advance or Heightened Cash Monitoring 1 payment methods, or (2) the date of the disbursement under the Reimbursement or Heightened Cash Monitoring 2 payment methods (see Department of Education (ED) Notice, June 27, 2017, Federal Register (82 FR 29061). The disbursement record reports the actual disbursement date and the amount of the disbursement. ED processes origination and/or disbursement records and returns acknowledgments to the school. The acknowledgments identify the processing status of each record: Rejected, Accepted with Corrections, or Accepted. Institutions must report student payment data within 15 calendar days after the school makes a payment or becomes aware of the need to make an adjustment to previously reported student payment data or expected student payment data. Schools may do this by reporting once every 15 calendar days, bi-weekly or weekly, or may set up their own system to ensure that changes are reported in a timely manner.

#### Condition and Context

We tested a sample of 40 students who received federal Pell grants in fiscal 2020. For 13 students in the sample, reporting to the COD were not performed within the required 15 calendar days.

#### Cause and Effect/Potential Effect

The university's system used to transmit disbursement information experienced difficulties which caused it to go offline intermittently and prevented the reporting to COD accurately and on a timely basis. The university's system of internal controls, although established, did not operate effectively to ensure compliance.

#### **Questioned Costs**

There are no known questioned costs related to this finding.

#### Repeat Finding

This finding is a repeat of a finding in the immediately prior audit and the prior year finding number was 2019-001.

#### Recommendation

We recommend that management review its current policies and procedures as it relates to reporting disbursements to the COD and incorporate a manual control to review that system transmissions are completed as scheduled and that the information transmitted is accurate. To ensure compliance with the 15-calendar day requirement for submission of disbursement information to COD, we recommend that management implement a more frequent reconciliation to ensure the submission are not only timely but also accurate.

Schedule of Findings and Questioned Costs

June 30, 2020

Views of Responsible Officials and Corrective Action

Management acknowledges the finding and recommendation. Changes to the reconciliation of the Pell program (see Finding No. 2019-001 from the 2019 Audit) were implemented midway through the fiscal 2020 Pell processing and awarding year.

The additional controls have ensured that the institution meets the compliance requirement to report student payment data within 15 calendar days. The Reconciliation Report is requested on Friday of each week to be reviewed the following Monday for errors, rejects and discrepancies with Pell transactions. The report has been designed to triangulate the dates of disbursement, student account posting and COD dates and to identify any discrepancies for the Pell Program to review and correct. The Associate Director of Compliance is responsible for overseeing weekly reconciliation corrections, the monthly School Account Statement (SAS) Reconciliation, and the adherence to federal processing guidelines.

# 2020-002 Significant Deficiency and Noncompliance: Enrollment Reporting

Federal Program

Student Financial Assistance Cluster:

Federal Pell Grant Program CFDA 84.063

Federal Direct Student Loans, CFDA No. 84.268

Federal Agency

U.S. Department of Education

Federal Award Year: July 1, 2019 to June 30, 2020

Statistically valid sample: No and it was not intended to be.

# Criteria

In accordance with 34 CFR Section 685.309 and 690.83, under the Pell grant and Department of Education (ED) loan programs, institutions must complete and return within 15 days the Enrollment Reporting roster file [formerly the Student Status Confirmation Report (SSCR)] placed in their Student Aid Internet Gateway (SAIG) mailboxes sent by ED via National Student Loan Data System (NSLDS). The institution determines how often it receives the Enrollment Reporting roster file with the default set at a minimum of every 60 days.

A student's enrollment status determines eligibility for in school status, deferment, and grace periods, as well as for the payment of interest subsidies to the Federal Family Education Loan (FFEL) Program loan holders by ED. Enrollment Reporting in a timely and accurate manner is critical for effective management of the programs. Enrollment information must be reported within 30 days whenever attendance changes for students, unless a roster will be submitted within 60 days. These changes include reductions or increases in attendance levels, withdrawals, graduations, or approved leaves of absence.

# Schedule of Findings and Questioned Costs June 30, 2020

Further, the non-Federal entity must establish and maintain an effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and terms and conditions of the Federal award (2 CFR 200.303).

#### Condition and Context

We tested a sample of 40 students whose status changed, including students who graduated, withdrew or went on an approved leave of absence. For 2 students in our sample who graduated in May 2020, the university did not report the status change to the NSLDS.

#### Cause and Effect/Potential Effect

The university uses a third-party service provider to report enrollment information to the NSLDS. The service provider reviews the enrollment information submitted by the university and provides error reports for among other things, inconsistent enrollment data. The sampled students were captured in an error report; however, the individual responsible for reporting the enrollment status for graduates did not review the error report, correct the error and resubmit to the third-party servicer until it was identified during the audit. The university subsequently updated and reported the correct status of the students. However, the reporting was 221 days after the required 60 calendar day requirement.

# **Questioned Costs**

There are no known questioned costs related to this finding.

#### Repeat Finding

This finding is not a repeat of a finding in the immediately prior audit

# Recommendation

We recommend that the university reinforces its policies and procedures to ensure persons responsible for monitoring exception reports from the service provider, review these reports to ensure compliance with the requirement of submitting accurate and complete enrollment reports in a timely manner. We also recommend that management perform a formal review of enrollment reports to ensure the information is complete and accurate prior to submission to NSLDS.

# Views of Responsible Officials and Corrective Action

After a review of the 2019-2020 error reports from the National Student Clearinghouse (NSC), we noted the error reports were not corrected and resubmitted to the NSC. The Graduated ("G") status was not applied correctly to a group of students conferred in Spring 2020 and Summer 2020. This was a result of human error and the transition of a new Assistant University Registrar for Degree Conferral in March 2020 when the university was switching to working remotely due to the pandemic. For the spring and summer 2020 terms, 37 recipients of federal financial aid did not have their "G" status applied in a timely manner.

Schedule of Findings and Questioned Costs
June 30, 2020

As a result of this oversight, the procedures document for uploading and reporting degree conferral to the NSC has been thoroughly reviewed and updated. Updates have been made to the procedures highlighting the need to regularly review the "G Not Applied" error report that NSC provides after the submission of a file (typically within 2-5 business days from our submission). The Associate University Registrar will also be regularly checking on the submission file and completion of the error and completion of the error reports for quality assurance purposes.

#### The New School

Correction Action Plan Year ended June 30, 2020

# (1) Finding 2020-001 Significant Deficiency and Noncompliance: Reporting

#### **Corrective Action**

Management acknowledges the finding and recommendation. Changes to the reconciliation of the Pell program (see Finding No. 2019-001 from the 2020 Audit) were implemented midway through the 1920 Pell processing and awarding year.

The additional controls have ensured that the institution meets the compliance requirement to report student payment data within 15 calendar days. The Reconciliation Report is requested on Friday of each week to be reviewed the following Monday for errors, rejects and discrepancies with Pell transactions. The report has been designed to triangulate the dates of disbursement, student account posting and COD dates and to identify any discrepancies for the Pell Program to review and correct. The Associate Director of Compliance is responsible for overseeing weekly reconciliation corrections, the monthly School Account Statement (SAS) Reconciliation, and the adherence to federal processing guidelines.

# **Person Responsible for Corrective Action**

Deirdre Bairstow-Allen

**Completion Date** 

June 30, 2020

# (2) Finding 2020-002 Significant Deficiency and Noncompliance: Reporting

# **Corrective Action**

After a review of the 2019-2020 degree verify submissions to the National Student Clearinghouse (NSC), we identified an error in correcting our reporting files. The graduated "G" status was not applied correctly to a group of students conferred in the spring 2020 and summer 2020 terms. This was a result of human error and the transition of a new Assistant University Registrar for Degree Conferral in March 2020 during the time the university was switching to remote work as a response to the pandemic. For the spring and summer 2020 terms, 37 recipients of federal financial aid did not have their "G" status applied in a timely manner.

As a result of this oversight, the procedures document for uploading and reporting degree conferral to the National Student Clearinghouse (NSC) has been thoroughly reviewed and updated. Updates have been made to the procedures highlighting the need to regularly review the "G Not Applied" error report that NSC provides after the submission of a file (typically within 2-5 business days from our submission). The Associate University Registrar will also regularly check on the submission file and completion of the error reports for quality assurance purposes.

# The New School

Summary of Prior Year Finding Year ended June 30, 2020

# Finding No. 2019-001 Significant Deficiency and Noncompliance: Reporting

#### **Corrective Action**

In addition to the monthly reconciliation of the School Account Statement (SAS), management has designed and implemented a weekly reconciliation to ensure the accuracy and completeness of reports submitted to COD. The additional control ensures the institution meets the compliance requirement to report student payment data within 15 calendar days. The Reconciliation Report will be run on Thursday of each week and will include both Pell and DL transactions and is designed to triangulate the dates of disbursement, student account posting and COD dates and to identify any discrepancies for the Pell and DL Program Managers to review and correct by close of business that week. The Associate Director of Compliance will be responsible for overseeing weekly reconciliation corrections, the monthly SAS Reconciliation and the adherence to federal processing guidelines.

Beginning in April 2019 the financial aid office moved to an automated batch process for the export and import of Pell files, eliminating manual related errors. Error reports are generated and delivered in email format to program managers when individual student records are picked up for export but not processed as well as instances when the report doesn't run as scheduled. Reports will be logged for historical reference moving forward.
